

Allison Beauchesne

Honors Peer Mentor

Hometown: Lawrence, MA

Class: 2021

School: School of Health Sciences

Major: Public Health

Bio: My peer mentor, Arpi, was an amazing person to have coming in as a freshman. I really looked up to my mentor and she was there to help me whenever I needed it. Having had my amazing peer mentor, I want to be there for my mentees just like my mentor was there for me. I love listening to music--country is my favorite--and love hanging out with my friends, watching *Friends*, and petting dogs. For me here at Merrimack it is a family affair. My twin also goes here, my older brother attends school here, and my dad is a police officer on campus.
