

Katie Halloran

Honors Peer Mentor

Hometown: Canton, MA

Class: 2022

School: School of Health Sciences

Major: Health Science

Bio: Hello! My name is Katie and I am a health science major at Merrimack with plans of becoming a Physician's Assistant! I love listening to music, watching Netflix, and staying active. On campus you can find me either in the Honors Commons doing homework, in the gym working out, or at Dunks getting my 3rd coffee of the day. Being in the Honors Program has given me a sense of community and belonging here at Merrimack, and I hope I can make your adjustment to college as easy and smooth as possible! My goal is to make you as comfortable as possible with your transition onto campus, and maybe even make a friend in the process!
