Major: Criminology and Political Science

Minor: Pre-Law and Law, Ethics, and Society

Bio:

Hi!!! I'm Tess and I am super excited to be one of the assistant peer mentor coordinators this year. This past year, I was lucky enough to be an honors peer mentor and it was such a fun experience. I had a really great relationship with my mentor when I was a freshman, and I was glad I was able to provide a similar experience for other freshmen. Freshman year can be very overwhelming at times, and I think it is very important for us to help out in any ways we can. There are a ton of amazing opportunities at Merrimack and I can't wait to introduce them to this incoming class. My favorite things to do on campus are hang out with friends, hanging out in the honors commons, and going to the different fun events that happen on campus. I am apart of Greek life on campus as well which is very fun. This past year, I have also gotten more involved with the honors program and the things the program has to offer. Please reach out if you have any questions!
