

Olivia Barbale

Honors Peer Mentor

Hometown: Worcester, MA

Class: 2023

School: Health Sciences

Major: 3+2 Exercise Science/Athletic Training

Minors: Psychology

Bio: Hey! I'm Liv and I'm so excited to be a part of Honors Peer Mentoring in the coming semester. I decided to pursue this role because I want to help incoming students adjust to the honors program and college in general. I am in the School of Health Sciences 3+2 program, which allows me to obtain my undergraduate degree in Exercise Science and my Master's degree in Athletic Training in only five years. Post-completion of my Master's I hope to continue on to Physical Therapy school and become a sports Physical Therapist. Here's some more about me: I love learning about anatomy and physiology and have always found it fascinating. I'm a field hockey goalie and have been playing since my Freshman year of high school. Finally, I love going to the gym and working out! I can't wait to meet all of you and welcome to Merrimack!
