

The Merrimack Institute for New Teacher Support (MINTS) Presents:

Language Functions Across Content Areas

Tuesday, Jan. 31
4:00-6:00 p.m. EST
Zoom

SCAN ME

Course Description: Educators will learn how to easily find the language of their content and build academic language for all students, without straying from content standards.

Time-Ordered Agenda

4:00-4:05 Introduction and Overview
4:05-4:15 Roles of Educators in the Context of SEI
4:15-4:30 Define Academic Language
4:30-5:00 Academic Language Functions
5:00-5:15 Academic Language Functions in Context
5:15-5:45 Planning for Building and Supporting Academic Language
5:45-6:00 Conclusions and Questions

Learner Outcomes

1. Identify the primary academic language functions of their content area
2. Explain how language functions appear in the receptive and productive domains of their content classroom
3. Outline a 3-point plan for supporting academic language through a chosen language function

Information & Logistics

All workshops are free and open to Merrimack College undergraduates and graduate students, alumni, K-12 educators.

This session will be fully remote on Zoom.

Please RSVP via the QR code or registration link to receive reminder emails with logistics.
