## VISUAL IDENTITY GUIDELINES

UPDATED 2025

*Original seal as designed by  
William F. J. Ryan.*

*Updates to shield elements*

Drawing on our rich history, the current Merrimack College logo reinterprets elements from the historical school seal, in a more modern and simple way. The logo includes four quadrants: a book with the words “Tolle Lege” (“take up and read”) from Saint Augustine; waves that represent the “swift water” of the Merrimack Valley Native Americans; and the cross from the coat of arms of the Archdiocese of Boston. The symbolism of our colors remain unchanged: blue for loyalty and gold for wisdom.

### Historical School Seal

Merrimack College's official seal was designed by heraldry expert, William F. J. Ryan of New York.

Circular with a blue peripheral band, edged in gold, it bears the title MERRIMACK COLLEGE with “A.D. 1947” between two crosses fleurette also in gold.

The center of the seal is a **shield**, whose upper portion bears the **image of a book with the words “Tolle Lege Tolle Lege”** across it. Incorporated in the shield are wavy lines and a cross, superimposed on a trimount figure at the bottom. Encircling the base of the shield on a silver background is a golden scroll displaying the College's motto, “Per Scientiam Ad Sapientiam” (“Through Knowledge to Wisdom”), in blue letters.

**Wavy lines represent water** in heraldry, so wavy pallets were chosen to represent Merrimack, which meant “swift water” to some of the Native Americans who once lived in the Merrimack Valley. The wavy lines are vertical rather than horizontal, not alone for artistic reasons, but also because wavy vertical lines seem to better capture the feeling of swiftly flowing water. The seal is an unusually good example of canting arms of which the medieval heralds were so fond. Canting arms, or “arms parlantes,” sing out the name of the bearer. The 13 wavy pallets recall that Massachusetts was one of the 13 original colonies. And-over (Andover) all in the base is a trimount, charged with a **cross fleurette**, from the coat of arms of the Archdiocese of Boston. The old name of Boston was Trimountain or Tremount. The cross fleurette refers to the French ancestry of Bishop Cheverus, the first Bishop of Boston (1810–1823). Thus the shield refers to the name of this Augustinian College and to its location in the Archdiocese of Boston. The trimount also is a charge on the coat of arms of Pope Pius XII, in whose pontificate Merrimack College was established.

The Order of Saint Augustine is represented in the College seal by the image of a book imprinted with the famous words connected with Saint Augustine's conversion, “Tolle Lege” (“take up and read”). The school colors, blue (color of loyalty and the cold, rippling waters of the Merrimack) and gold (symbol of wisdom and a papal color), predominate on the shield.

### Clear Space

Keep other objects such as busy graphics and photos clear of the logo.  
Clear space should be equal to or greater than the size of the M in Merrimack.

### Minimum Size

In order to maintain legibility of “TOLLE LEGE,” the shield should never be smaller than 0.5 inches in height.  
EPS files should not be scaled below 100% in size. JPG and PNG files should not be scaled below 50% in size.

If minimum size is too big for desired use, email [brand@merrimack.edu](mailto:brand@merrimack.edu).

The secondary logo (“Est. 1947”) should not replace either the centered or horizontal primary logos as a sign-off on official communication. Recommended use: clothing, promotional items, banners, etc.

### Primary Colors

Merrimack Blue is integral to and a primary visual identifier for the school. Merrimack Gold supports and accents Merrimack Blue. Merrimack Gold may be used in type only if readable. Consistent and accurate representation of these colors will reinforce the brand identity. Neutral gray can be used to complement the two primary brand colors.

### **General Office Use**

**JPG and PNG** files are common file types that can be used in many print and interactive environments. Both JPGs and PNGs can be placed in Microsoft Office and/or Google documents and are acceptable for inter-office and on-campus communications.

PNGs are best suited for interactive documents, such as web pages and Powerpoint, and are not suitable for print.

Provided files can be scaled from 50% to 100% in size.

### **Outside Vendors**

**EPS** files are the preferred format for most print situations when working with an outside vendor like printers, design firms, or “swag” companies.

Please direct them to the online toolkit so that they can select the best file for the job.
